

WHEN EVERY SECOND MATTERS: STUDENT SAFETY DOESN'T STOP WHEN THE BUS LEAVES CAMPUS.

The Aina PTT Voice Responder transforms your school transportation communication into an intelligent, voice-enabled safety system — combining Push-to-Talk, automated alerts, and emergency response features in one compact device.

DESIGNED FOR MODERN SCHOOL TRANSPORTATION TEAMS

Transportation directors, fleet managers, and school administrators need communication tools that are:

- Reliable and secure
- Loud and clear in noisy bus environments
- Simple for drivers to use
- Scalable across districts

The Aina PTT Voice Responder delivers dependable connectivity without complexity.

Traditional radios offer a limited range and basic voice. The Aina PTT Voice Responder brings school transportation into the LTE era with:

- Nationwide Push-to-Talk over Cellular (PoC)
- Instant group or one-to-one communication
- Integrated emergency alert capabilities
- Compatibility with leading PTT apps and networks

Drivers stay connected to dispatch, transportation directors, and school administrators — wherever their routes take them.

RELIABLE IN-VEHICLE COMMUNICATION FOR SCHOOL TRANSPORTATION: SAFER ON THE ROAD

AINA PTT + RAM® MOUNTS

Keep school bus drivers connected with a secure, professional in-vehicle communication setup combining Aina PTT Voice Responder and RAM Mounts mounting solutions.

This integrated solution provides a stable, powered mounting system together with advanced Push-To-Talk functionality — delivering dependable communication throughout every route.

- Built for the Demands of School Bus Operations
- Secure device mounting in busy driver environments
- Continuous power and charging while in operation
- Wireless Bluetooth® Push-To-Talk connectivity
- Clear, loud audio optimised for noisy bus cabins

Drivers can mount, connect, and communicate with minimal setup — no complicated installation or radio infrastructure required.

UPGRADE SCHOOL BUS COMMUNICATION TODAY!

When urgent situations arise, drivers need more than a radio.

Modern school transportation demands more than legacy radios.

Contact us to learn how the Aina PTT Voice Responder can support safer routes, faster response times, and smarter coordination for your school bus fleet.
