

OPERATIONS NEVER PAUSE: AINA PTT SOLUTIONS FOR TRANSPORTATION INDUSTRY

- Nationwide Push-to-Talk over Cellular (PoC)
- Instant one-to-one or group communication
- Integrated emergency alerts for rapid response
- Seamless compatibility with top PTT apps and networks

THE AINA PTT VOICE RESPONDER

The Aina PTT Voice Responder turns ordinary in-vehicle communication into an intelligent, voice-driven coordination system, combining Push-to-Talk, automated alerts, and instant-response features — all in a compact device.

Fleet operations require tools that are:

- Reliable & secure — communications you can trust
- Clear & powerful — audible even in the loudest cabins
- Effortless for drivers — intuitive and distraction-free
- Scalable — adaptable to fleets of any size

With the Aina PTT Voice Responder, dependable connectivity comes without complexity.

RELIABLE IN-VEHICLE COMMUNICATION FOR SCHOOL TRANSPORTATION: SAFER ON THE ROAD

AINA PTT + RAM® MOUNTS

Keep drivers connected with a secure, professional in-vehicle communication setup combining Aina PTT Voice Responder and RAM Mounts mounting solutions.

This integrated solution provides a stable, powered mounting system, along with advanced Push-To-Talk functionality, delivering dependable communication throughout every route.

- Built for the Demands of Transportation Operations
- Secure device mounting in busy driver environments
- Continuous power and charging while in operation
- Wireless Bluetooth® Push-To-Talk connectivity
- Clear, loud audio optimised for noisy bus cabins

Drivers can mount, connect, and communicate with minimal setup — no complicated installation or radio infrastructure required.

KEEPING OPERATIONS MOVING, TEAMS UNITED!

When every second matters, your drivers deserve more than a radio. Modern transportation demands real-time coordination, instant response, and bulletproof connectivity.

Upgrade your fleet today. The Aina PTT Voice Responder delivers faster response times, safer operations, and smarter fleet management — wherever the road takes you.

Contact us to transform your fleet communication into a system that works as hard as your team.
